- My most favorite session was at the end with Kevin Bracy. He spoke to my heart. As an aide, I would directly with students who experience a home life that is far from ideal. I KNOW I make a difference in their lives for the better. His affirmation of that was so inspiring. I will never get rich doing this job, that is a fact. But I feel so blessed to be able to wake up every day (after 21 years, I might add) excited to work with "my" kids!
